## CONSCIENTIOUS DRUGGIST

About a year ago E. A. Sodergren, a druggist, wrote to me from Callaway, Nebraska, that he had a serious case of kidney disease and that his physician did not offer him much encouragement. He desired to put Fulton's Renal Compound in stock for his own case and if he got results he would sell it to others. He wrote several times for advice, showing a very obstinate case. He now writes: "It is now ten months since I began using the compound, and although my case has been very obstinate, it seems to have finally yielded to the treatment. I have no doubt results would have been obtained sooner had I not kept at work." "Due to the results obtained in this case, our agencies were promptly accepted in Callaway and the adjoining town." "Simply another kidney trouble in which the inflamed kidneys refused to respond to the futile old-time kidney ex-citents and that after all, the patient yielded to Fulton's Renal Compound, the first and only efficient for inflamed kidneys. Inflammation of the kidneys, even in its advanced forms, is now curable. Send for literature."

## "White Flour Boys"

You can pick them out—in the school-room, in the street, in the home—they are pale, flabby,

sickly—they are fed on white flour bread and soda crackers. Make sturdy, chubby boys and girls by feeding them the food that builds muscle, bone and brain—the sweet, crisp malted flakes of wheat. Children like it and thrive on it.

"FORCE" is made of the best white wheat, steam-cooked, rolled into thin flakes, combined with the purest barley-malt and baked. Always "crisp" it before serving it by pouring

into a pan and warming it in oven. Then serve in large dish with cream, piling the flakes in one side of the dish and pouring the cream in the other side, dipping the flakes as eaten.

**"FORCE"**

Your Grocer sells it. No other Flaked Food is "Just as Good."
